

Material Safety Data Sheet - InSight V-CHEM Critical Care Panel

Section 1 – Product and Company Identification

Manufacturer: Woodley Equipment Company Ltd.

Old Station Park Buildings, St. John Street, Horwich, Bolton, BL6 7NY, UK

Tel: +44 (0) 1204 669033

Email: sales@woodleyequipment.com

Product Name: InSight V-CHEM Critical Care Panel

Packaging Specification: 1 Disc/Sample.

Product Description: Solid spherically lyophilised beads are enclosed in a sealed, plastic

packaging.

The Critical Care Panel, used with the InSight V-CHEM Chemistry Analyser, is intended to be used for the in vitro quantitative determination of Potassium (K+), Sodium (Na+), Chloride (Cl-), Calcium (Ca), Blood Urea Nitrogen (BUN), Creatinine (CRE), Total Carbon Dioxide (tCO2), Glucose (GLU), pH, Lactate (LAC), Magnesium (Mg), Phosphorus (P) and Alanine Aminotransferase (ALT) in heparinised whole blood, heparinised plasma or serum in a clinical laboratory setting or point of care location.

Section 2 – Composition/Information on Ingredients

Material Name	CAS No.	Character
Trometamol	77-86-1	White powder
L- Alanine	56-41-7	White Powder
α-ketoglutaric acid	328-50-7	White Powder
Sodium chloride	7647-14-5	White powder
D- trehalose	6138-23-4	White Powder
D- sorbitol	50-70-4	Yellow liquid
Triton X-100	9002-93-1	Liquid
Bovine Serum Albumin	9048-46-8	White powder
NADH	58-68-4	White Powder
D-Lactate dehydrogenase	1.1.1.28	Yellow suspension
Ethylenediaminetetraacetic acid	60-00-4	White powder
Sucrose	57-50-1	White powder
Dextran 40000	9004-54-0	White powder
Starch soluble	9005-84-9	White solid
Polyethylene glycol 8000	25322-68-3	Transparent viscous liquid
Urease	3.5.1.5	White powder

Section 3 – Hazard Identification

Classification: Not a hazardous substance or mixture.

Hazard Statement(s): Not a hazardous substance or mixture.

Section 4 – First Aid Measures

Eye Contact: Flush open eye under running water for 15 minutes or longer. If pain or irritation occurs, seek medical attention immediately.

Skin Contact: Wash contacted skin with soap and water. Remove contaminated clothing. If pain or irritation occurs, seek medical attention immediately.

Ingestion: Rinse mouth with water and seek medical attention immediately.

Inhalation: Move to a place with fresh air. If pain or irritation occurs, seek medical attention immediately.

Section 5 – Fire Fighting Measures

Extinguishing Media: Water spray, foam, carbon dioxide and dry chemical powder.

Special Hazards Arising from the Chemical: The product itself is not flammable but its packaging and surroundings may be combustible, and will release harmful gas or smoke when burning.

Protective Equipment: Wear self-contained breathing apparatus and full protective tools. Extinguish fire upwind, do not inhale gas or smoke. If it is safe to do so, remove the container from the fire area.

Section 6 – Accidental Release Measures

Personal Precautions: No special protection for the product is required.

Measures for Environmental Protection: Avoid the product entering the sewer or water resources.

Measures for Containment and Cleaning: Collect and sort out the leaked materials and handle them together.

Section 7 – Handling and Storage

Handling: Avoid damage and stay away from high temperatures. Wear disposable gloves during operation. Wash hands after operation.

Storage: Refrigerated storage at +2°C to +8°C. Avoid sunlight, keep dry and sealed. Do not store in an environment exceeding +32°C.

Section 8 – Exposure Controls and Personal Protection

Occupational Exposure Limits (OEL): Data not available.

Control Parameters: Data not available.

Monitoring Method: Data not available.

Appropriate Engineering Controls: No specialised engineering controls are required for typical handling and use. Maintain natural ventilation in work areas.

Personal Protective Equipment: Safety glasses, protective gloves and protective work clothing are recommended.

Section 9 – Physical and Chemical Properties

Physical State: Solid. Odour: Not available.

Odour Threshold: Not available.

pH: Not available.

Melting Point/Freezing Point: Not available.

Density: Not available.

Specific Gravity: Not available.

Internal Boiling Point/Boiling Range: Not available.

Flash Point: Not available.

Evaporation Rate: Not available. **Flammability:** Not available.

Upper Explosive Limit % (V/V): Not available. Lower Explosive Limit % (V/V): Not available. Vapour Pressure/Density: Not available. Relative Density (Water=1): Not available.

Solubility(ies): Not available.

Partition Coefficient (n-octanol/water): Not available.

Ignition Temperature: Not available.

Decomposition Temperature: Not available.

Molecular Weight: Not available.

Section 10 – Stability and Reactivity

Stability: Stable under normal ambient storage and handling temperatures.

Distribution of Ban: Not available.

Conditions to Avoid: Not available.

Hazardous Decomposition Products: Not available.

Hazardous Polymerisation: Will not occur.

Section 11 – Toxicological Information

Acute Toxicity: Not available.

Sub-acute and Chronic Toxicity: No known significant effects or critical hazards.

Skin Corrion/Irritation: No known significant effects or critical hazards.

Serious Eye Damage/Irritation: No known significant effects or critical hazards.

Sensitisation: No known significant effects or critical hazards.

Mutagenicity: No known significant effects or critical hazards.

Carcinogenicity: No known significant effects or critical hazards.

Reproductive Toxicity: No known significant effects or critical hazards.

Potential Health Effects: No known significant effects or critical hazards.

Section 12 - Ecological Information

Ecotoxicity: No data available.

Biodegradable: No data available.

Non-biodegradable: No data available.

Bioconcentration or Biological Accumulation: No data available.

Other Harmful Effects: No known significant effects or critical hazards.

Section 13 – Disposal Considerations

Dispose of the used reagent discs as medical waste. Unused but expired reagents should be handled in small quantities as hazardous chemicals. Do not dispose of it into household waste or drainage systems.

Polluted packaging materials should be treated as medical waste.

Section 14 – Transport Information

UN Number: Not regulated as dangerous goods.

UN Proper Shipping Name: Not regulated as dangerous goods.

Hazard Class: Not regulated as dangerous goods.

Packing Group: Not regulated as dangerous goods.

Environmental Hazards: None.

Special Precautions for User: No information available.

Section 15 – Regulatory Information

This Safety Data Sheet (SDS) was prepared according to Regulation (EC) No.1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) No. 2020/878 and UN GHS (the 10th revised edition).

Safety, Health & Environmental Regulations/Legislation Specific for the Substance or Mixture:

No information available.

Chemical Safety Assessment:

For this product a chemical safety assessment was not carried out.

Section 16 – Other Information

To the best of our knowledge, the information provided herein is accurate but does not purport to be all inclusive. It is intended to provide a general guidance in terms of safe handling, storage and disposal of materials. Woodley Equipment Company thus assumes no liabilities for any damage or loss resulting from handling or from contact with this product. Contact Woodley Equipment Company if additional information is needed.
