

InSight V-IA Feline Cardiac Troponin I Evaluation vs. Vcheck V200

The InSight V-IA is an easy to use veterinary Immunoassay Analyser providing accurate and reliable results in 3-15mins. The InSight V-IA uses immunofluorescence technology for accurate results. A competitive binding assay is based upon the competition of labelled and unlabelled analytes for a limited number of antibody binding sites. Unbound antibodies and immunocomplexes migrate along the nitrocellulose membrane towards the test line. The unbound antibodies are then captured by antigens immobilised on the test line. The fluorescent signal intensity reflects the amount of analytes captured and is measured by the InSight V-IA.

Feline Cardiac Troponin I

The InSight V-IA Feline Cardiac Troponin I Test is mainly used for the diagnosis of cardiomyocyte injury.

Comparison Items

InSight V-IA:

Test Item – Feline Cardiac Troponin I

Quantity of Samples – 50 Tests

Instrument – InSight V-IA Veterinary Immunoassay Analyser

Anigen (Vcheck):

Test Item – Feline Cardiac Troponin I

Quantity of Samples – 50 Tests

Instrument – Vcheck V200
