

ABOUT US

Woodley Equipment Company Ltd, established in October 1989, is a leading global provider of medical equipment, laboratory diagnostics, and veterinary equipment. The company operates from three office and warehouse locations in the North-West of England, as well as an additional location in New York, USA, and is organised into five divisions:

- **Clinical Trials**
 - Specialising in the International rental of medical and laboratory Point of Care equipment to the Clinical Trials industry.
- **Laboratory Diagnostics**
 - QBC dry haematology analysers, QBC fluorescence microscopy solutions, Arkray POC, Vision Microscopes and Clinispin centrifuges direct to EMEA distributors.
- **UK Veterinary Diagnostics**
 - Laboratory equipment, diagnostic and critical care products direct to veterinary practices across the UK.
- **Woodley Veterinary Diagnostics**
 - Laboratory equipment, diagnostic and critical care products for worldwide veterinary distributors.
- **Quantum Veterinary Diagnostics**
 - Specialists in Wet Chemistry solutions for UK veterinary practices.
