

# Digital Incubator -23 litre

Available for hire or purchase for your clinical trial.

## Overview

The 23 litre digital incubator is a compact design and is an economical and space saving solution for microbiology or haematology applications. The temperature can be freely adjusted in increments of 0.1°C up to a maximum of 70 °C. Heating elements are incorporated into the housing base and walls to ensure temperature stability and uniformity.

The transparent window allows full visibility of samples without opening the door, thus preventing heat loss. The housing and door frame are constructed entirely of epoxy coated mild steel.

## Operating Feature

- Compact design
- Power light illuminated when switched on
- LED temperature display
- Excellent temperature stability
- Up and down key for temperature adjustment
- Supplied with two perforated stainless steel shelf
- Easy to use, safe and reliable

## Specification

- Net Capacity 23 Litres
- Temperature Range Ambient +5°C to +70°C
- Temperature Accuracy at 37°C  $\pm 0.5^\circ\text{C}$
- Temperature Stability at 37°C  $\pm 0.5^\circ\text{C}$
- Controls PID Control
- Power Supply 230V, 50/60Hz, 0.7A
- Internal Dimensions  
290×290×270 W×D×H (mm)
- External Dimensions  
340×360×400 W×D×H (mm)
- Weight: 12.8kg
