

► Digital Min/Max - In/Out Thermometer

available for purchase for your clinical trial.

Overview

This digital min/max and indoor/outdoor thermometer features an easy to read dual display. It simultaneously displays both the in and the out as well as the max/min temperatures at the push of a button. The instrument also features a programmable, audible high/low alarm (remote probe only).

Powered by AAA battery it is supplied with a small, water resistant, detachable remote sensor probe with three metre PVC lead for outside temperatures. The thermometer is housed in an ABS case incorporating a foldaway stand and a keyhole slot for hanging on a wall.

Specification

- Temperature Range Inside: -19°C to +69.9°C
- Temperature Range Outside: -49°C to +69.9°C
