

RAPIDVET®-H

COMPANION ANIMAL CROSSMATCH KITS

In-practice crossmatch test kits for use in transfusion medicine on either canine or feline patients.

A companion animal crossmatch can now be easily performed in-practice prior to transfusion

Essential for Good Transfusion Practice

- Will detect all major canine and feline blood group incompatibilities
- Performed in-practice in 10 minutes
- Easy to use and results are clear
- Simple to use and quick to run
- Use alongside canine and feline blood typing kits
- Part of the RapidVet-H Range
- Available in kits of 3 tests with room temperature storage
- Minor Crossmatch Kits also available

Use in conjunction with canine & feline blood typing kits - see overleaf
