

Vision V5000 Microscope Innovative LED Powered Microscope

Vision V5000 Microscope Innovative LED Powered Microscope

The Vision V5000 Binocular Microscope has an innovative LED powered illumination system that results in a white light instead of the yellow light produced by filament lamps. It is robust and consists of high quality components which assure a high image contrast and excellent optical resolution. With a modern and ergonomic design, it is easy to handle and transport.

FEATURES

- 50,000 hours LED light source life time (instead of 1,500 from a halogen lamp)
- 30° inclined head rotates 360°
- Wide-field eyepieces 10x/18mm
- Adjustable interpupillary distance
- Dioptric compensation
- · Revolving nose piece, quadruple, reversed
- DIN achromatic objectives 4x, 10x, 40x, 100x
- Double layer mechanical stage, 125 x 115 mm with X-Y 70 x 30 mm moving range
- Coaxial coarse and fine focusing
- LED illuminator with adjustable intensity
- N.A. 1.25 Abbe condenser with adjustable height and iris diaphragm
- Universal voltage for international markets -100 - 240V
- · Low cost UK annual service option
- UK lens cleaning service available free of charge
