

Biogal In-Practice Diagnostic Kits

ImmunoComb VacciCheck® In-Practice Antibody Test Kit

ImmunoComb VacciCheck Antibody Test Kit monitors serological status, reduces vaccination failure and prevents over vaccination consequences for dogs and cats.

VACCICheck® Canine

The Canine VacciCheck Antibody Test Kit is designed to determine dog serum antibody titre to:

- Infectious Canine Hepatitis (ICH)
- Canine Parvovirus (CPV)
- Canine Distemper Virus (CDV)

The main purpose of this kit is to provide a useful tool to assess the immune status of dogs to the three core canine infections.

VACCICheck® Feline

The Feline VacciCheck Antibody Test Kit is designed to determine cat serum IgG antibody titre to:

- Feline Panleukopenia (FPLV)
- Feline Herpes Virus (FHV)
- Feline Calici Virus (FCV)

The main purpose of this kit is to provide a useful tool to assess the immune status of cats to the three core feline infections.

WSAVA Guidelines state that titre testing for the 3 core canine and feline pathogens should be performed instead of automatic annual revaccination.

Quick & Easy to Use

VacciCheck is recommended by the WSAVA to comply with regulations to reduce unnecessary vaccinations
